The memo says all exhibits and evidence were to have benn transferred to the Archives. On page 2 Hoover added a note, "I want all & I mean all exhibits, etc. in this case transferred to the Archives & at once." (Emphasis in original.)

The third page is the notification of the order, of August 19, almost 3 months earlier. Serial 538 states unfactually that "all the material developed by the FBI was turned over to the Warren Commission." Thus the requester is referred to the Archives.
